The kids are making all sorts of noise in their rooms but you can't hear a thing because they are insulated by closets and the hallway. Great storage with an oversized hallway closet perfect for storing all the things you should have sold in the last garage sale. You'll be an official family of the millennium with your spectacular home theater fitting perfectly in the triple alcove designed just for your style of living. And, when family or friends visit, let them stay right in your office which converts easily into a guest suite. You'll find a reason in every room to make the Charleston your choice.

Whatever you are looking for... you probably stored it in this closet. A lot nicer than putting everything in the garage.

Go right ahead and bring some work home. It'll almost be fun working in your own home/office.

Whoever is the designated chef will like the idea of being able to see everything going on in the Living Room as they prepare the special meal.

A ROOM FOR EVERY MEMBER OF THE FAMILY
