where did all this space come from?

Well, you gave up the fourth bedroom in favor of a fantastic family and game room. And what a difference it makes.

Everyone will congregate at the pass through bar in the kitchen as the champion of the billiard table

takes on the next challenger. When it's just family the high ceilings and open spaces of the leisure areas will put your soul at ease as you rest from the exciting challenges of your family's active life. The Master Bath will invite you to spend way too much time by yourself in luxury... but then you deserve a little pampering to celebrate your hard earned success.

Put the pool table right here and great tiffany hanging lamp above. You'll immediately want to invite the friends over.

We think this is just what you had in mind in a Master Bath. Just like you've seen in the most expensive designer models.

Put a great big pumpkin under this entrance just for Halloween. You will also warmly welcome your friends the rest of the year.

**NOW, THIS IS WHAT YOU REALLY HAD IN MIND!**
