Greet your guests as they arrive through the raised entry and formal foyer. They'll be truly impressed. You've always wanted to have a very formal living room, with lots of glass and a beautiful view. The family will look forward to gathering in the family room to watch the latest movie release. There is room for everyone, and a great corner for a wrap-around home-theater.

You'll truly feel like a master in the Master Suite with separated double bowl cultured marble vanities, and a large soaking tub to soothe the tension of your modern lifestyle. The kids rooms are surprisingly large to accommodate their wildest collections of childhood treasures. Hang the family photos on the wall of the bannistered stairway, just like Beaver Cleaver's house.

It's almost a joy to prepare meals on this island within a quick reach of everything you'll need. You'll probably even get help from the family when they see how much fun you're having.

This is where you'll spend the most enjoyable hours. Comparing your stories of the day, and enjoying your family as the children grow much faster than you ever expected.

Real Walk-in not just peak-in closets. And, look at the space. It's like staying at a fine resort.

Have you got a kid for this room? They've got lots of stuff, needing lots of walls, and lots of space.

IT'S THE PLACE THAT YOU'VE BEEN DREAMING OF!
